

3516B-HD Gensets Mining - High Voltage

2 Caterpillar 3516B-HD Industrial Generator Sets
 Location: Mexico

SUMMARY

Mining company needed a 4.5 MW diesel powered generator for the expansion of their mine operation.

CHALLENGE

Mining company was on a low budget, but needed a 13,200 V generator immediately to support the operation's expansion.

SOLUTION

IMP provided two new surplus 3516B-HD industrial generator sets with the required voltage.

Specs

Equipment:
 Generator Set Capacity of 2250 kW Standby, 60 Hz, 1800 RPM, 13200 V

Applications:
 Industrial Generator Set

Market

- Base Load Power
