

Caterpillar XQ1500 Industrial Portable Power Module

Caterpillar XQ1500 with CAT 3512B Engine
 Location: United States

SUMMARY

A mining company needed a fully containerized power generation system to power tools, equipment, and general work and living conditions for workers and staff.

CHALLENGE

The project was located in an area that had an arid desert climate with high winds and extreme temperatures.

SOLUTION

IMP provided a fully containerized CAT XQ1500 with control panel and switchgear, powered by a CAT 3512B diesel engine. Despite harsh desert conditions, the unit was successfully delivered and installed on time.

Specs

Equipment:
 Generator Set Capacity of 1500 kW, 1971 HP, 60 HZ, 480 V,
 1800 RPM

Applications:
 Standby Power

Market

- Mining

Equipment

- Power Module
 - Diesel Engine
