

2 Used CAT XQ1250G Natural Gas Power Modules

Caterpillar XQ1250G with CAT G3516B Engines
 Location: South America

SUMMARY

An oil drilling company was starting an operation on a new oil field that required 2.5MW of power.

CHALLENGE

The remote area was off-grid and power generation equipment was needed immediately, however the company was on a limited budget.

SOLUTION

IMP provided two, mid-hour XQ1250G generator sets on schedule and under budget.

Specs

Equipment:
 Generator Set Capacity of 1250 kW continuous, 60 Hz, 480 V, 1800 RPM

Applications:
 Natural Gas Generator Set
 Continuous Power
