

CAT APS1000 Power Module Supplied to Customer Fleet

Caterpillar APS1000 Rental Grade Power Module.
 Rated 1000 KW Standby, 60 HZ, 480 V, 1800 RPM
 Location: Miami, FL

SUMMARY

A midwestern Caterpillar rental group inquired about a 1MW CAT Power Module with low hours to purchase for their fleet.

CHALLENGE

It was difficult for IMP to locate any available rental equipment at this time, since most were being utilized for Hurricane Season.

SOLUTION

An APS1000 that fit the client's specifications was identified as currently in use at another rental firm. In order to acquire the unit, IMP arranged a trade for one of its 1.5MW units as a replacement, then delivered the newly-acquired module to its midwestern customer.
