

Offshore Drilling Generator Sets

4 Caterpillar 3512B 1015 kW 600 Volt Diesel Gen Sets
 Location: Europe

SUMMARY

A domestic dealer needed four diesel generator sets to be shipped to oil drilling platforms for a European customer.

CHALLENGE

600 volt units are very popular in the oil and gas industry but finding four available units of the same build posed a challenge for IMP.

SOLUTION

Units were sourced, shipped and installed on the respective oil platforms to meet the dealer and customer's needs.

Specs

Equipment:
 Generator Set Capacity of 1015 kW, 60 Hz, 1200 RPM, 600 V

Applications:
 Continuous Power
