

Natural Gas Industrial Generator Set

CAT G3516 Natural Gas Industrial Generator Set
 Location: Europe

SUMMARY

An industrial complex with access to surplus natural gas resources was looking for a gas generator that can reduce grid-dependence by producing their own prime power.

CHALLENGE

10,500 volt units are not as common as standard voltage units so IMP needed to source a unit with the specifications that would fit the customer's manufacturing need.

SOLUTION

A unit was sourced and acquired that fit the exact specifications requested by the customer. The unit reduced the customer's grid dependence and reduced operational overhead.

Specs

Equipment:
 Generator Set Capacity of 1030 kW, 50 Hz, 10500 V

Applications:
 Prime Power
