Industrial Motor Powers (IMP) and International Power Traders (IPT) Unite to Form Global Partnership with SDMO

SDMO names power generation equipment providers IMP & IPT as Global Partners.

October 25, 2013 - BURBANK, CALIFORNIA ([PRNewswire](#)) - IMP, in conjunction with its Latin American partner IPT, today announced a global partnership with SDMO to supply the worldwide market with their diverse range of secondary market power generation equipment. The agreement provides SDMO with an exclusive distribution channel to the global market, and specifically, Latin America.

The companies will share the designation as an SDMO Global Partner, increasing customer access to SDMO's custom power solutions, power products, portable items, and rental equipment through their well-established global and Latin American networks. This arrangement will enable customers from around the world to benefit directly from the features, reasonable pricing, and scalability of SDMO's offerings.

SDMO designs, manufactures and installs generating sets from 1 to 3300 kVA for its standard range of products. In addition, SDMO engineers tailor-made power plants and offers additional services with high added value: training, after-sales service, spare parts.

IMP is a global provider of wholesale power generation equipment to both the retail and reseller markets. With more than 35 years of industry experience, the company possesses both owned inventory as well as a network of suppliers that enables it to service the dynamic power generation needs of multiple industries, government agencies and individual companies around the world. More information about IMP's partnership with SDMO is available at <http://www.impcorporation.com/sdmo>.
