

## CAT XQ Power Modules Supplied as Prime Power to Concrete Paving Company

CAT XQ1000 & XQ1500 Power Modules  
 Rated at 1000 KW/1500 KW,  
 60 HZ, 480 V, 1800 RPM  
 Location: Victorville, CA

### SUMMARY

IMP Corporation was engaged by a California-based concrete paving company to provide on-site power solutions for an upcoming off-grid project.

### CHALLENGE

Given the location of the client's project, it was determined that XQ power modules would be the best option. However, as the California wildfire response teams were using most of the available XQ's in the region, locating the right equipment would be a challenge.

### SOLUTION

Utilizing its proprietary database, IMP was able to identify standby power modules near the project location, and provided a replacement solution to the owners in order to free up the XQ units for the concrete paving company.

## Specs

Equipment:  
 Caterpillar XQ1000 Power Module  
 Generator Capacity of 1000 KW, 60 HZ, 480 V, 1800 RPM  
 Caterpillar XQ1500 Power Module  
 Generator Capacity of 1500 KW, 60 HZ, 480 V, 1800 RPM

Applications:  
 - Prime Power

### Markets

- Construction

### Equipment

- XQ1000 powered by C32 Engine  
 - XQ1500 powered by 3512B Engine

### Products

- Power Module
