

## Pair of CAT C18 Marine Propulsion Engines Supplied to East Coast

CAT C18 Marine Propulsion Engine  
Rated at 1136 HP (847 kW), 2300 RPM  
Location: Miami, Florida

### SUMMARY

An east coast yacht owner contacted IMP, by referral of a previous customer, looking for two replacement C18 marine propulsion engines for the maintenance of his vessel.

### CHALLENGE

Given the delay at the factory due to the global semiconductor backlog, the make and model desired was difficult to acquire.

### SOLUTION

IMP Corporation was able to locate a large fleet of Caterpillar C18 marine propulsion engines in Europe after executing a global campaign.

## Specs

Equipment:  
2x CAT C18 Marine Propulsion Engines  
Engine Capacity of 1136 HP (847 kW), 2300 RPM,  
"E" Rating

Applications:  
- Marine

## Markets

- Recreational Marine

## Equipment

- Propulsion Engine

## Products

- 24V starter  
- Heat Exchanger Cooling  
- IMO Compliant / EPA Tier 3
