## CAT XQ2000 Power Module Refurbished and Supplied to Midwestern Rental Fleet

CAT XQ2000 Power Module  
Rated at 1825 KW Prime/ 2000 KW Standby,  
60 HZ, 480 V, 1800 RPM  
Location: Midwest USA

### SUMMARY

A midwestern CAT Dealer contacted IMP Corporation looking for a rental grade power module to replenish their rental fleet.

### CHALLENGE

The task grew challenging due to the recent lack of availability in the market for the acquired model. IMP located a XQ2000 that met the clients criteria but required heavy maintenance.

### SOLUTION

IMP arranged the CAT XQ2000 power module to be refurbished through trusted technicians then safely delivered ahead of schedule.

### Specs
