

Fleet of Cummins C1250D2R Gensets supplied to European Independent Power Producer

34x Cummins C1250D2R Industrial Generator Sets
 Rated 1120 KW/1400 KVA Standby, 50 HZ, 400 V,
 1500 RPM
 Location: Uruguay

SUMMARY

IMP Corporation was contacted to help supply an Independent Power Producer with 38MW worth of equipment to assist with Europe's power shortage.

CHALLENGE

After an extensive search to fulfill the customer's needs, IMP was able to source 34x Cummins C1250D2R gensets in Uruguay. This discovery came with its own challenges since production was scheduled to begin soon and units needed to be inspected and certified before they could board freight.

SOLUTION

After a successful inspection of the Cummins fleet, IMP coordinated the logistics in a timely matter and had the 34x Cummins generators safely aboard a cargo ship to voyage from the port of Uruguay to Europe to begin production.

Specs

Equipment:
 Cummins C1250D2R PowerBox 20X Industrial Gensets
 Generator Capacity - Switchable:
 60HZ: 1270 KW/1588 KVA, 480 V, 1800 RPM
 50HZ: 1120 KW/1400 KVA, 400 V, 1500 RPM

Applications:
 - Prime Power

Markets

- Independent Power Producers

Equipment

- C1250D2Rs powered by KTA50G3 Engines
