

## 2250 Horsepower Marine Propulsion Engines

2 Caterpillar 3512C-HD Marine Propulsion Engines  
 Location: Asia

### SUMMARY

A shipbuilder needed two identical marine propulsion engines rated at 2250 horsepower to be delivered to Asia for a new tugboat project.

### CHALLENGE

IMP needed to find a pair of engines that met the specifications and delivery deadline to complete the build.

### SOLUTION

Using trusted sources, IMP acquired the matching pair of engines and delivered them to the shipyard in time to complete the project.

## Specs

Equipment:  
 Engine Capacity of 2250 HP, 1800 RPM, Tier 2  
 Keel cooled  
 ABS certified

Applications:  
 Propulsion

## Market

- Shipbuilder

## Equipment

- Marine Propulsion Engines

## Products

- Caterpillar 3512C-HD Marine Propulsion Engines (2 units)
